OUR PROJECTS

JEWISH ITALIAN CATACOMBS

FBCEI has been designated by Italy and by the Union of Italian Jewish Communities of the supervision of the Jewish Italian Catacombs.

During the European Day of Jewish Culture, FBCEI always organizes a special visit to Villa Torlonia or Vigna Randanini (both located in Rome).

WHAT ABOUT THE FUTURE?

FUTURE PROJECTS

UPDATING ARS CENSUS 1/3

The Foundation, in collaboration with the Central Institute for Cataloguing and Documentation of the Italian Ministry for Cultural Heritage (ICCD), is intended to update the Census ARS made in the 90s that had filed 8000 Jewish artifacts on the Italian territory.

The data will be imported into the software SIGEC according to the standards of the ICCD and will be associated with the slides made at that time, currently redigitilised.

FUTURE PROJECTS

EDITION OF A UNIQUE HEBREW MANUSCRIPT FROM THE NATIONAL UNIVERSITY LIBRARY of TURIN

The edition is a poetic bilingual text (Italian and Hebrew) written by a Jewish author in Piemonte in the seventeenth century. The text is of particular cultural interest as it focuses on Italian history.

A special issue of La Rassegna Mensile di Israel will be devoted to such research.

FUTURE PROJECTS

RESTORATION OF A SEFER TORA' from BIELLA

We want to give back to the Jewish Community of Biella an old Sefer Torah suitable for carrying out the ritual functions. The Sefer Tora' dates back to fourteenth century and is 70 cm high and 30m long.

The restoration involves cleaning, repairing and sewing the parchment. The cancelled letters will be filled, the patches made in the past will be controlled and the woodworm holes will be repaired.

Once restored, it will be the oldest kosher Sefer Torah in Italy.
